

## Model HF

*Features of one of the most flexible general purpose signing machines available on the market*

**WRITES WITH ANY STANDARD WRITING INSTRUMENT** - Including fountain pen, ballpoint pen, felt marker, mechanical pencil and even crayon. A large barrel option is available at no extra charge if requested with the machine order.

**SIGNS ALMOST ANYTHING** - Including books, large posters to small note cards, diplomas, DVD/CD covers, souvenirs, memorabilia, athletic equipment, business cards, self-adhesive papers, and stapled sheets. With an inverted signature cartridge, the machine can be used to sign large, oversized posters.

**SPEED CONTROL** - Thirty different pen speeds are available to accommodate different pen and paper combinations.

**PEN PRESSURE** - Has continuous adjustable knob for more precise control of pen pressure. Will sign multi-part forms.

### **SECURITY FEATURES**

- **Usage Limiting** - A maximum number of signatures can be established for each operator (maximum 30 operators).
- **Password Protection** - A password is required to start the HF. A password may be assigned to each operator (maximum 30 operators). The password can be as simple as

## Page Two - Features of HF

a single character or as complex as seven characters (alpha and/or numeric). Individual signature cartridges may be given a password prior to shipment.

- **Multiple counters to monitor usage** - Individual counters track usage by operator (maximum 30 operators), daily usage (since powered on) and individual signature cartridge usage.

**FAST START-UP** - Once a cartridge is connected to the machine, all information is immediately accessed by the machine, eliminating the need to load contents into memory.

**FAST, EASY SIGNATURE LOCATION** - When writing a signature, the machine always pre-positions the pen at the start of the signature, eliminating the need for an illuminated signing plate (option is available for convenience for high volume users).

**LARGE WRITING AREA** - The 3"x 6" writing area offers a number of writing options including phrases and larger signatures.

**FULLY SELF-CONTAINED SYSTEM** - All components are built directly into the machine so there is no need to connect a power supply, voltage converter or similar components.

**FULL CHARACTER SET KEYBOARD** - The full character set keyboard allows easy entry of passwords and operating commands.

**CONVENIENT STORAGE OF SIGNATURE CARTRIDGE** - A cartridge about the size of a 3/4" thick credit card contains the signature and/or written message.

**EASY TO MOVE MACHINE** - The unit size and weight allows it to be easily moved between offices. A foot pedal initiates the signature start.

**CE COMPLIANT** – Conforms to International Safety and Health Requirements

**Machine Dimensions:** 8 1/2" high, 21 3/4" deep and 12" wide

**Weight:** 23 pounds

**Power Requirements:** 110 volts, 1 amp
